I'm a Junior Software Developer with hands-on experience in developing and deploying full-stack web applications using the MERN stack (MongoDB, Express.js, React, and Node.js). Actively working on real-time projects, I focus on building scalable, high-performance, and user-friendly web solutions. I'm passionate about solving technical challenges, writing clean and maintainable code, and continuously enhancing my skills in modern JavaScript technologies. With a strong commitment to quality and innovation, I aim to contribute effectively across the entire software development lifecycle.
